

The background image shows three workers in silhouette on a high-voltage power line tower. They are wearing hard hats and safety harnesses. The workers are positioned at different heights on the tower, with one worker on the left, one in the center, and one on the right. The tower structure is made of metal lattice. The background is a bright, hazy sky, likely at sunset or sunrise, with the sun low on the horizon. The overall tone is industrial and dramatic.

INNOVATIONS IN FR & ARC FLASH PROTECTION

One of Europe's leading manufacturers of bespoke technical workwear. We have leading specialists within the organisation who are experienced in technical garment manufacture to the latest European standards.

SAFETY FIRST

Complete solutions, uncompromising quality.

Protecting your people is what we do.

We won't compromise their safety, so we don't compromise on the quality of our products.

We work with you to establish precisely what your requirements are and then create a safety solution that delivers. As an established industry expert, we have years of experience in doing just that.

As part of our tailored solutions, we work with world leaders in fabric development and innovation. Whatever the requirement, we ensure you get the right product for the job.

1

Eagle is an experienced industry expert, providing tailored PPE solutions.

2

We work to European safety standards, ensuring you're working safely.

3

Our fabric partnerships enable us to provide you with first-rate protection.

SAFETY IN NUMBERS

Eagle has more than 20 years experience in providing the very highest standard of protective clothing.

We work with a wide cross section of operatives who need the highest levels of performance from their equipment. As such, we always provide solutions you can rely on.

We work to established industry standards, ensuring all our products are of the very highest quality and adhere to all relevant regulations. As your expert PPE partner, we make sure your people are protected and your business is compliant.

16V can be fatal to a human when electricity passes through organs such as the heart.

The principal hazard of static electricity is a spark discharge which can ignite a flammable mixture.

EN 1149

Electrostatic properties of protective clothing.

These garments are used in environments where there is a risk of explosion eg Gas, Petrochemical

16%

of fatalities in the oilfields result from fire and explosions.

EN ISO 11612

Protective clothing against heat and flame. Standard specifies the performance requirements for garments which protect the body from heat and flame (except the hands).

EN ISO 11611

Protective clothing for use in welding and allied processes.

The protective clothing is intended to protect the wearer against small splashes of molten material.

12,000°C

ARC Flash

can occur vaporizing metal into a gas and heating the air so that it creates a pressure wave called an "arc blast."

IEC 61482-1-2

ARC in a box test

'Box arc' test method Published as EN 61482-1-2 in March 2007. The 'Box arc' test method is based on the original European method described in ENV 50354, with a heat transfer measurement. Materials or assemblies are classified as Class 1 (4 kA) or Class 2 (7 kA).

ADVISE > DESIGN > MANUFACTURE

SAFETY TO THE HIGHEST STANDARD

Your safety solution starts with a conversation. We combine our unique industry expertise with your individual requirements to build a complete picture, then work with you to provide the most appropriate safety solution.

Our range of protective clothing features garments designed for a wide variety of demanding tasks. Whatever the application, we ensure our products are suited to the task and are of the very highest quality to guarantee the

safety of your people. If we don't stock exactly what you need in our extensive range, we'll design it bespoke and manufacture it to meet your requirement.

Layered Approach

We can work with you to achieve a Cal rating upto 40 Cal/m².

Please contact us to discuss what you need cover for.

WE ADVISE

As an industry leading, global provider of protective clothing and equipment, we advise you on the best solution to suit your needs.

WE DESIGN

If our range doesn't include the right product for a particular task, our specialist designers will create it bespoke. We can also brand any product according to your requirement.

WE MANUFACTURE

We have the experience and the expertise to manufacture bespoke products ourselves, giving us total control over the whole process.

Eagle are ISO9001 certified for Design and Manufacture of Flame Retardant PPE

SAFETY BUILT FOR THE JOB

Whether off-the-shelf or designed bespoke, all our products are built with safety in mind.

Every task has its own inherent risks and requirements, so our products are designed individually to ensure the highest levels of protection and performance.

Our range of products are designed in Europe and conform to the industry standards guaranteeing to deliver your safety.

HARD WEARING PRODUCTS, BUILT TO PERFORM.

FABRIC

Eagle Permaguard 3 ply laminate fabric. Comfortable and breathable with rip stop design for additional durability.

WAIST

Elasticated waist for a comfortable fit.

FEATURES

Strong functional brace system.
Lumber support. Leg zippers.

DESIGN OPTIONS

WE DISTRIBUTE WORLDWIDE

Eagle Technical Products was formed in 2002 to meet the needs of a wide cross section of emergency service workers who require the highest level of service and protection available from their protective clothing. The Directors of Eagle have been involved in the PPE sector for over 20 years, giving our customers confidence in our ability and experience within this sector.

FIREFIGHTING

Eagle Technical Products are a world leader in firefighter clothing. We provide bespoke solutions that are used by firefighters all around the world, to offer them the maximum protection against heat and flame.

POLICE WEAR

Eagle Technical Products are a valued supplier of FR undergarments to many police forces around the United Kingdom. We design and manufacture these garments in-house.

FR INDUSTRIAL WEAR

Our highly qualified design team work hand in hand with our customers to create garments that are comfortable, stylish and most importantly safe. These unique designs can be tailor-made to specific workforces.
