

ETF20NKV

Eagle Technical Products are world leaders in the design and production of fire protective flash hoods. The Eagle ETF20TKV hood features two layers of kermel® Viscose fabric giving the wearer maximum protection. The notched shoulders and longer length bib ensures a proper fit and added protection across the chest. The unique Eagle design balaclava features two totally flat lock seams for extreme comfortable and fit. The longer length assures that this hood will stay tucked inside other required equipment.
