

Falcon Red Fire Suit

ETF2044D3 ETF2045D3

The Falcon Fire suit has undergone extensive testing and wearer trials to ensure excellent performance in the toughest conditions. It's lighter & stronger and considers the full system over individual elements. The special lining materials we are using are a unique system to prevent heat stress and this innovative approach targets heat-stress reduction and maximize the physiological performance of the user

OUTER SHELL
Twin Square

MEMBRANE
Topaz 3D PTFE
