

ETF20CX

Eagle Technical Products are world leaders in the design and production of fire protective flash hoods. The Eagle ETF20CX hood features two layers of Carbon X fabric giving the wearer maximum protection. The notched shoulders and longer length neck ensures a proper fit and added protection across the chest. The unique Eagle design balaclava features two totally flat crushed seams for extreme comfort and fit. The longer length assures that this hood will stay tucked inside other required equipment.

CARBON X

Composition:

Outer: 220gsm Carbon X

Liner: 220gsm Carbon X

PRODUCT FEATURES

Innovative design to ensure that the seams are comfortable.

Elasticated face opening.

Extended bib for additional protection.

Designed to work alongside other PPE and sits comfortably under shoulder braces.

The fabrics are a rib design for additional comfort and stretch using a warp knit fabric that offers superior fit and comfort.
